

FRIENDS OF SILVER
MUCH CAST DOWNTHE ADMINISTRATION HATES
TO ACCEPT THE RESULT.

Senator Jones' Bill Will Not Pass Through the Senate—Oppositions to New Battleships Manifested by the House—Income Tax Trouble—Other News from Washington.

Washington, Feb. 16.—There seems to be a disposition on the part of the administration to accept the vote in the house Thursday as a finality and bond issues and currency have been dropped entirely so far as this congress is concerned. There are a dozen bills and general financial measures in the senate, but none of them will be considered. The silver men are making strenuous efforts to secure consideration for the Jones coinage bill. This measure would have gone through, in all probability, had the gold bond resolution passed the house. Members of congress now know that a silver coinage bill would not have as much chance in the present house as a gold bond bill, for the republicans who voted against the administration would oppose silver coinage. In addition to this fact no silver bill can possibly secure President Cleveland's approval.

The only financial measure which is likely to get before the senate is the Allison-Gorman amendment to the sundry civil appropriation bill providing for interest bearing treasury certificates to cover current expenses. The bill is in the hands of a subcommittee composed of Senators Cockrell, Allison and Gorman, two of whom are the leaders in the proposition. They consider that the statement from Secretary Carlisle furnishes ample reasons for action to take out of the treasury. The secretary admitted that 105 of the 116,000,000 received from the sale of bonds were used for current expenses of the government. The subcommittee will report the bill to the appropriation committee to-day, and it will contain the financial rider. Some of the silver men say they will not oppose the amendment, as it does not precipitate the coinage question, but they are not able to control their forces, and the amendment may be killed after all by the addition to it of a free coinage proviso.

MEAT INSPECTION LAW DISCUSSED.

Eastern Senators Say a Change Would Benefit Chicago Packers.

Washington, Feb. 16.—Mr. Hill (dem., N. Y.) and Mr. Hale (rep., Maine) had a little tilt at the senate opening yesterday. Mr. Harris of the finance committee reported favorably on repealing one-tenth differential on sugar from bounty paying countries.

Mr. Aldrich (rep., R. I.), in behalf of the republican members of the committee, presented a resolution providing for the re-enactment of the reciprocity feature of the tariff act of 1890, providing for a bounty on domestic sugar and providing for deficiencies in revenue resulting from the removal of the duty from sugar, wool, etc. The report and the resolution went to the calendar.

Mr. Butler (dem., S. C.) then spoke at length in support of the railroad pooling bill. He offered the opinions of experts showing that out of \$700,000,000 of railroad traffic only \$40,000,000 would be pooled if this bill passed.

The Butler resolution was then laid aside, Mr. Chandler giving notice that he would reply at a later day.

The postoffice appropriation bill was then taken up and vote was taken on the amendment of Mr. Blackburn reducing by 10 per cent the allowance for the Atlantic fast mail line north and south—viz: From \$196,000 to \$176,000. The amendment was defeated, 18 to 31.

Mr. Blackburn returned to the railroad pooling bill, which was carried by a similar fast line in the west running through Ohio, Kentucky, Tennessee, Georgia, Mississippi, Louisiana, and Texas. Mr. Call added Florida. Both amendments were laid on the table—33 to 23.

The postoffice appropriation bill was then passed without opposition.

The agricultural appropriation bill was then taken up. Mr. Call said the present inspection laws were being evaded. Unscrupulous dealers were sending meat goods abroad labeled as having passed government inspection when no such inspection had occurred. Mr. Platt declared this was a cover plan to make wholesale extension of the meat inspection system, and it could not be justified as a means of conciliating Germany. "If Germany wants to retaliate," he said, "she should know it is a game that she could play at."

Mr. Chandler said the change would stop the shipment of the present stock of canned meats as there was no means of inspecting the cattle slaughtered. It would also give the big slaughterhouses of Chicago, St. Louis and Kansas City a corner on the canned meat business for the next two years.

Mr. Vest said the change was in behalf of health and life and not to benefit packing houses.

Mr. Cullom said it was imperative in getting American meats into foreign markets.

No final action was taken on the change in meat inspection or other items of the bill and it was laid aside. Some unimportant bills were passed, and the senate at 5:50 held a brief executive session and then adjourned.

OPPOSED TO NEW BATTLESHIPS.

Strong Speeches Made in the House Agal at Increasing the Navy.

Washington, Feb. 16.—The house yesterday went into the committee of the whole (Mr. O'Neill, Mass., in the chair) on the navy appropriation bill. The bill carries \$31,807,073 and contains provisions for three new battle ships and twelve torpedo boats. Mr. Dolliver (rep., Iowa) spoke in support of the provision for new ships. He believed the development of a navy and a merchant marine were hand in hand.

Mr. Hall (dem., Mo.) opposed the proposed increase of the navy. Mr. Money (dem., Miss.) a member of the naval committee, made a strong plea for the appropriation of new ships on the ground that they were absolutely necessary for the defense of our coast.

Mr. Everett (dem., Mass.) took the position that at the present and prospective demands on the treasury costly warships were extravagant luxuries. In a glowing peroration that riveted the attention of the house, Mr. Everett declared that war was of the past.

HOW TRADE LOOKS
TO DUN & COMPANYCHEAP FARM PRODUCTS AND
SMALL PRODUCTION.

Curtailed Purchases By the West and South Are Natural in View of Prices of Corn, Wheat and Cotton—Falling Off in Failures for the Week.

New York, Feb. 16.—R. G. Dun & Co.'s weekly review of trade says: Another week's exports of gold and withdrawals from the treasury have been almost entirely stopped by the contract for purchases of gold from Messrs. Belmont and Morgan. For the moment business only waits to know whether sales of American securities and withdrawals of gold from the treasury have been lastingly stopped by the remarkable increase of confidence. The two obstacles which block the path just now are exceeding cheapness of farm products and restricted operations in the industries. There has been no gain in prices of farm products on the whole.

Corn is nominally half cent higher, but with insignificant movement, while wheat, also, with a movement hardly half of last year's, is a quarter of a cent lower for the week. Cotton, with continuing large receipts, remains unchanged. The output of pig iron Feb. 1 was 167,291 tons, against 168,414 tons weekly Jan. 1, but the stocks remaining unsold were 718,073 tons, against 645,463 tons Jan. 1, and indicate a decrease of 16,137 tons in actual consumption weekly during the month of January. The severe storms in February have further curtailed production. Sales of steel rails were only 150 tons in January and the weather has arrested structural work and retarded deliveries of all kinds. Continued dullness is reported in cottons and a reduction of prices by the Amoskeag mills causes some hesitation. In the main the works are well employed, but with extremely scant profits and considerable doubt whether the market will be found for accumulating stocks of some goods.

Trade in woollens is by no means satisfactory, though fairly large volume in medium and low grades, but prices have been generally reduced and competition with cheap foreign goods is felt somewhat. Sales of wool continue within about a sixth of a week's normal supply for eastern mills, amounting to 5,068,400 pounds, of which 3,585,600 were domestic. Fine fleeces are not stronger and sales of Ohio are quoted at 16½¢.

Failures for the week were 270 in the United States, against 323 last year, and 51 in Canada, against 55 last year.

Washington, Feb. 16.—Much sorrow was expressed by the Indiana members gathered at the news of the death of Minister Gray at the City of Mexico. McBride Dissatisfied.

This report was not satisfactory to Mr. McBride and his friends. They said it was equivalent to a Scotch verdict, "guilty, but not proven," and insisted that the committee should be instructed to have the report recommitted with instructions to the committee to make an effort to settle the matter definitely one way or the other.

CHARGE OF TREASON
LAID AGAINST LILDUSKY QUEEN IS BEFORE THE
COURT.

Report of Her Conviction Was Unfounded—Guilty Knowledge Is Shown—Most Damaging Evidence Is Her Personal Diary Found in Her Residence After Her Arrest.

San Francisco, Cal., Feb. 16.—The steamer Mariposa arrived from Sydney and Auckland via Apia and Honolulu this morning, bringing the following Hawaiian advices as of Honolulu Feb. 8: Liliuokalani, Queen of Hawaii, was arraigned on the 5th inst. on a charge of misprision of treason. The original charge was treason. She is represented by Paul Neumann. The first day was frittered away by the argument of counsel, who objected to the court at every turn. His objections were overruled in every instance. After the charge was read the matter went over for a day. The case was called again day before yesterday. The deposed monarch refused to plead, so a plea of not guilty was entered. The work of examining the witnesses was gone on with and enough evidence was given to prove to an impartial observer that she was aware the rebellion was to be started. The most damaging evidence that will be brought against her is her personal diary, which was found in her residence after her arrest. Whether this is introduced and made public at her trial depends upon the course pursued by her counsel in defending her case. The ex-queen re-

corded her thoughts, desires and impressions freely in her diary. Among the entries made during last summer was one stating: "J. O. Carter called to-day and delivered President Cleveland's present to me." What this present was is not stated.

Up to the time of the return of the special commission which went to Washington to interview President Cleveland the ex-queen records herself as favoring a waiting policy, confident that the American administration would interfere in her behalf. After Mr. Cleveland's answer to the commission she became more aggressive and began to listen with growing favor to those urging an uprising on the part of the natives. Rudolph Spreckels called to see her often and is represented as advising her to fight it out. She did not agree with him until during his last stay in Honolulu. He indicated that she could get plenty of money in San Francisco to buy arms and carry out a successful rebellion. He is also represented as the willing agent of the ex-queen.

The last entry of the diary was made Dec. 28, 1894, and closed with: "Signed eleven commissions to-day." These were commissions for officers of the new government referred to in the testimony of her private secretary. The documents have been concealed or destroyed, and her attorney has endeavored to prove that they never existed.

Since last advices the military court has tried twenty-one native rebels, V. V. Ashford, John Cummings, John Wise and Capt. Davies. Cummings and Davies both pleaded guilty to the charge of treason. The latter was master of the steamer Waimanalo, the vessel that landed arms for the rebels. The government has liberated John S. Walker, Thomas Rawlins and Henry Swinton on their own recognizances. They are charged with conspiracy. It is understood that a number of prisoners, who have business interests, will be liberated after the departure of the Mariposa. A well-defined rumor says that Admiral Beardslee has instructions to raise the flag of the United States over Pearl Harbor. It is indicated that the United States government will take possession of the harbor under guaranteed treaty rights and virtually declare a protectorate over the islands. Admiral Beardslee is said to be vested with the authority necessary to carry out the program. C. C. Moreno, who takes a lively interest in Hawaiian affairs, recently wrote to Robert Wilcox, one of the condemned rebel leaders, saying that he had been assured by Senator Hawley and other prominent men

The main building of the institution, a mile and a half from White Plains, was burned to the ground. The children, who were asleep, had a narrow escape, but were safely hustled from the building by the attendants and given temporary shelter in the laundry building. The fire started from a defective furnace flue. Most of the children, wearing apparel was destroyed and the children, many of whom were sick, suffered considerably from the severe weather.

Bill prohibiting minors under 16 years of age from carrying deadly weapons was made a special order for next Tuesday. The following was the most important bill introduced: Mr. Steen—To regulate the employment of minors. The bill prohibits the employment of any child under 14 years of age in any mine, workshop, factory, etc., abolishes the present factory inspection system, and provides for the appointment by the governor of a factory inspector at \$1,500 per annum, an assistant at \$1,250, and twelve deputy inspectors at \$1,000. Six of the deputy inspectors shall be women, and of them shall be physicians of good standing, one a man and the other a woman. The house adjourned until 5 p. m. Monday.

The senate concurred and the resolution was adopted. Some new bills were introduced and four advanced to third reading. The senate adjourned until 5 p. m. Monday.

TO DISCREDIT BLIXT.

His Testimony Weakened by Surprising New Testimony.

Minneapolis, Minn., Feb. 16.—There was a striking episode at the afternoon session of the Hayward trial yesterday. It was when M. D. Wilson was called to testify for the defense. He said he met Miss Gling the night of the murder driving out Lyndale avenue from the north, and she turned on Kenwood boulevard. This seems to prove the theory of the defense that there was a third party connected with the crime. Evidence was also introduced showing that Harry Hayward had made numerous inquiries in regard to life insurance matters. The defense in the morning resumed its efforts to impeach the testimony of Blixt, the particular line of attack being against the story Blixt told on the stand of having gone to see some acquaintance in South Minneapolis immediately after the commission of the crime. The evidence of Ole Thorsen, his wife, and Mary Larson established at least a doubt that Blixt visited the house on Twelfth avenue south which he claimed to have visited that night.

WOMEN IN EARNEST.

Unique Crusade Against Saloons Commenced in Sioux City, Iowa.

Sioux City, Iowa, Feb. 16.—The Woman's Christian Temperance Union yesterday continued the crusade which culminated so dramatically in Manderseid's saloon Thursday. A band of more than 100 women left the Whitfield Methodist church at 4 o'clock and visited eight saloons before they dispersed for the day. The meeting hymns and notifying the saloon keepers law by next Monday. An immense personally to comply literally with the crowd followed the women as they proceeded from saloon to saloon, blocking the streets and even stopping the electric cars. The saloon men are indignant at the conduct of Manderseid yesterday and large numbers of them in printed interviews condemn him. The women propose to enforce the law literally. The city and county authorities say they know of no steps to inaugurate prosecutions, but will act on any complaints that are regularly filed.

WHITE LIGHT CLUB WORK A NEW SCHEME

ARE NOW EXPERT SEWING
MACHINE REPAIRERS.

In Connection With their Labors In that Direction They Are Willing to Accept Charity Although they Much Prefer Employment—This Smartness Got Them Into Jail.

NY time that the ingenuity of the White Light club fails to net a few drinks will go down in history as a day of exceeding frugidity. 'Tis but a few days since "Budget" Welch worked a game that showed the amount of intellect that the vice president for the Second ward has to possess in order to hold his job. That was a good smooth idea but it was nothing at all compared with the subtle cunning of High and Exalted President "Darby" J. Griffin. Grand High Past President James Nash and Supreme High Secretary "Biddle" O'Rourke when assisted by Mr. A. Bum of Eau Claire. When these four worthies got together yesterday they were thirsting exceedingly. A Bum had just come in on the axle of a freight car. Perhaps his name isn't A. Bum. At the jail he registered as Roscoe Conkling—but let that pass. A Bum is easier to write. But be Mr. Bum's name what it may; his thrice was as dry as a poplar's sap at free silver. He met President Griffin at Five Points and stated his case, whereupon the president sounded the tocsin and called the club together.

Decided on a Scheme.

The meeting which was secret was held at Nash's hall just aft of the Northwestern "sand house." President Griffin presided and Secretary O'Rourke kept the records, mainly, perhaps, because that was all any of the crowd had to keep. The chair recognized A. Bum, who explained his condition. The members of the club wept in his behalf, (for they had often been sore at him) and after passing a resolution endorsing the stand taken by the legislature in regard to bogus butter, they adjourned.

Five minutes later they were all seen headed for the First ward. Darb went to a house and rang the bell. "Have you got a sewing machine that needs repairs?" he asked of the lady who answered the bell.

"No."

"I am so sorry my good lady" replied Darb, shedding a few "counterfeit tears" "for my frame is racked with want and the cold breeze cuts my illy clothed form with the sting of a blade of steel. I had hoped to get work enough to earn twenty-four cents that I might get supper; I have one cent now."

Got The Quarter.

"I have no work for you, but if you are suffering as you say, take the quarter and buy yourself some food."

"Thank you a a a. I appreciate your kindness and let it never be said that Myquel Smith, the sewing machine expert, failed to be thankful for a service rendered him."

"Then "Darb," to use the language of the club "ducked."

At three other houses three other men had been working the same scheme. Mr. O'Rourke returned to the "sand house" with a "hand out" while Mr. Nash and Mr. A. Bum had been equally fortunate, but in the meantime some one had notified the police that there were some suspicious characters hanging about that vicinity so Chief Acheson and Officer Hogan went up. As the result "Darb" and "Jimmy" and "Biddy" and "A Bum" all went to jail. In the meantime any one who has a sewing machine that is out of repairs will do well to write to one of them in care of Sheriff Appleby, although The Gazette wishes it understood that this is no sewing machine advertisement but simply a recognition of talent.

This morning Griffin, Nash and Mr. Bum were introduced to Judge Phelps. Griffin and Nash being charged with being common drunkards and Bum with vagrancy. Griffin and Nash pleaded "not guilty" and will be given a hearing on Monday while Bum was sent down for thirty days.

SWITCH ENGINE JUMPED THE RAILS
The St. Paul Machine Derailed By a Broken Switch Clasp.

The St. Paul switch engine went through a series of gymnastics this morning and as a result they worked half an hour to get the big machine back on the rails. The engine was passing a switch near the passenger depot when the clasp that holds the switch in place broke, allowing the rails to spread and throwing the engine from the track. The tender was more or less wrecked, but there was no further damage done.

E. K. GOLDEN IS QUITE A TRADER

Rockford Printer Who Began Life With a Calf, Flourishes.

The Republican thinks that E. K. Golden, a former employee of that concern is entitled to the champion belt as a trader.

"He started with a calf some years ago and has been trading ever since, getting a little the best of the bargain each time until now he has wound up with a boot and shoe stock, a post-office and an opera house on his hands" says the Republican.

"He first traded the calf for a sausage grinder and a meat block. These two articles he parted with at a good profit and soon had accumulated enough truck to exchange for a track of Kansas land.

"The land in time went and the other day Golden traded for a stock of goods at Avon, Wis., and has gone there to close out the goods when he may return here unless he makes a dicker by which he becomes owner of a gold mine warranted to last until death do them part.

"Avon has only about 600 inhabitants and the postoffice and opera house is in Golden's block."

Startled Doctors and People Alike.

The Facts Read Like an Astonishing Story.

But Every Word Is True as Can Be Easily Proved.

West Port, N. Y.—A most extraordinary thing has happened here. The facts are of such a startling nature that our people are not done talking about them yet.

We have all heard of "splitting headaches."

A thousand times have we heard people who had a severe nervous, neuralgic or sick headache, exclaim that their head ached as though it would split.

But here is a case of most terrible headache, where the head did in fact split—that is, by the awful severity of the disease, the bones of the head actually opened. Most of the people here know about the facts of this most astonishing case, and several of our doctors examined and treated the patient unsuccessfully, and they will vouch for the truth of these wonderful things.

The lady herself, Mrs. Fred C. Lasher, Jr., is a well known resident here, and gives all the facts just as they occurred in her own words.

"For thirteen years I have been afflicted with terrible headaches night and day. At night the blood rushed into my head and into my throat so that I would just raise my head and spit great mouthfuls of blood.

"The bones of my skull were all opened so that the doctor could lay his thumb right into the opening onto my brain. I could sleep only an hour or two nights, and was so nervous that I could hardly sit at the table, for just the motion of the mouths of my family seemed to me like they were all making faces at me, and I was obliged to get up and walk the floor. Two doctors who attended me said I was on the verge of insanity. I was under the doctor's care for nine years. All the way I could do any work was to have a bandage tight around my head so as to support it as though my two hands were around it.

"I got so that I would fall anywhere, and all these years I got no relief from the doctors, and found no help until I began to use Dr. Greene's Nervura blood and nerve remedy.

"That seemed to have the same effect on my head as sitting under a shady tree with a cool, refreshing breeze blowing on my head. Nobody can tell what I suffered all these years. I commenced using Dr. Greene's blood and nerve remedy, for I thought I must soon do something, or I should be in an asylum.

"The first bottle I took gave great relief, and inside of a year the bones of my head had taken their natural shape again. My nerves have now regained their natural calm condition, and I can say that I am now perfectly well. I have used the Nervura for several years now, and use it for my children when teething.

"I am unable to describe in words the gratitude that I feel to Dr. Greene for his wonderful medicine, and am glad to tell as well as I can, of the benefit this medicine has done me."

Gabriel L. Smith, also a resident of this place says:

"I am acquainted with Mrs. Lasher, and can vouch for the truth of her statement."

Hon. Carlos L. Smith a Justice of the Peace, of 9 Barre St., Montpelier, Vt., states that from his knowledge, and investigation of the case, he knows that the facts as above stated are absolutely true, and that Mrs. Lasher was perfectly cured of her terrible condition by Dr. Greene's Nervura blood and nerve remedy.

This wonderful remedy certainly has the largest and most remarkable number of cures of any medicine in the world. It would seem that no affliction or disease can resist its sweeping curative powers.

If it can cure such a terrible case as this, certainly all other cases of headache, neuralgia, rheumatism, weak back, pains in the back or side, and all weakness of nerves, or debility of body, yield as if by magic to the health-giving and strengthening action of this grand medicine. Such troubles are always worse in the spring and this best of all spring medicines should be taken now.

It is purely vegetable, and perfectly harmless, and for this reason, and because it is so sure to cure, physi-

THE COASTERS QUIT WHEN ONE WAS HURT

ACCIDENT ON PROSPECT AVENUE HILL LAST NIGHT.

Bob Was Overturned While Going Like a Shot and Miss Mabel Morse Received Painful Bruises and a Sprained Wrist—Forest Park Has a Natural "Switch Back."

While a party of young people were coasting on Prospect avenue last evening, an accident occurred which resulted in severely injuring Miss Mabel Morse. The party was using a pair of heavy bob-sleighs and were coming down the grade at a high rate of speed when the sleigh was ditched and overturned. Miss Morse, who is the daughter of Mrs. Emma Morse, 152 Cornelia street, was severely bruised beside receiving a severe sprain of the wrist. Several others in the party were shaken up severely but none were injured to any extent. The accident broke up the party for the evening. Coasting was excellent on the east side bluffs, the roadways having been put in excellent condition for coasting by the few days of warm sunshine. Large parties were out on Fourth and Prospect avenues, and also on the Forest Park grades.

Forest Park people claim the best coasting advantages in the city. They say they have a regular switch-back track and are enjoying this advantage to its full extent. The grade is down Garfield avenue across Racine street, and then up into Glen Etta. The momentum gained in the descent of Garfield avenue takes the coasters well up the Glen Etta grade, so that very little climbing is required in reaching the summit of Glen Etta's bluff. Here the coasters start on a good down grade for the return to the summit of Garfield avenue.

In fact the coasting is good both ways, and is greatly enjoyed by the youngsters. Last evening there were quite a number of elderly people were out enjoying the sport, and I. C. Brownell was explaining to the party how he managed a pair of bobs in New York state when he was a boy.

Besides the coasting parties who are out every evening, large numbers are also out with sleighing parties, driving into the country, and making the bracing night air merry with songs.

A MOUNTAIN BRIGAND.

By ALFRED R. CALHOUN.

Ge, and then they vanished into the darkness. They were evidently the pickets and vedettes on duty for the night.

Owen told him before they went to sleep that he was the first man who had been taken into the gang on so short a trial, and he was sure that Collins would be "right smart glad of a chance to show no mistake hadn't been made." Owen had drunk enough to make him communicative, or it may have been that he thought his bedfellow entirely worthy his confidence, for he told him that there were "more'n a hundred men in the band at this time," and that they might easily recruit to a thousand from the Confederate deserters then coming into the mountains from Joe Johnston's army, but that Captain Kit McGee thought that more men would be a source of weakness, and in this he was right.

The next morning the pickets were relieved, but Collins did not wish to seem eager for duty. He saw that the old man was watching him, and he was determined to win his confidence. From the very first Molly McGee showed her preference for Collins, but this, instead of flattering his vanity, filled him with alarm, for Owen, who had a subdued leaning that way himself, told him that "two of the best men in the crowd shot each other all to pieces awhile ago all on account of that gal, Molly McGee."

For four days after joining this lawless crowd nothing unusual happened. Collins, with the others in camp, spent much of his time target shooting with rifle and revolver, and his skill with those weapons tended to give him standing with the captain and the men. Even the women carried pistols, and Molly McGee was as quick and accurate with the revolver as any man in camp.

"I have seen her," said Collins, "throw the lid of a tin box overhead, then pull the pistol from her hip and fire when it balanced on the turn to come down, and three times out of five she would shoot a hole through it."

On the fifth morning following his arrival the old man—he was under 50, but was called "Old Kit" to distinguish him from his son—sent for Collins and spoke after this fashion:

"I reckon, Jim, ez how yer 'bout rested by this time. Ef so be you uns feels all fresh and right, Kit'll take you with a lot of the boys ez is gwine down Pikeville way on a little hunt. We uns hez just heard that thar's right smart of scatterin wagons down long the North Sequatch, and hit mout be that you uns could pick up suthin handy ef you kept your eyes peeled and didn't get into no dainjah. Now, my son, w'at do you uns think of goin along?"

"Is it afoot or a critter back?" asked Collins.

"Oh, afoot, to be shuah. If so be you uns should stand in need of critters, look around, and you may find a right smart of 'em to be got fo' untyn. Then, agin, hit's a heap sight easier to go on foot when one doesn't rightly know what lies ahead. At sich times a critter may be in the way, but comin back home, when the road's straight and cleah, is an entirely different thing."

"I'm willin to go with Kit, no mat-tah whar he goes or what he does," replied Collins.

On hearing this brave speech Molly McGee, who was standing near, threw her arms about Collins' neck, and after giving him a resounding kiss assured him that he was "the man fo' her money."

As the men were always in a state of preparation, it did not take long to get ready. They filled their haversacks with bread and meat and replenished their cartridge boxes from the ample stores on hand, then started off. Nor were there any tears or fond adieus from the women and children who watched them out of the valley.

As might be expected, these men were unsurpassed pedestrians. In a day's march in the hills the best horse would be left far in the rear. They could keep tirelessly on for 48 hours at a stretch, and they did so on this occasion. When they reached the borders of Blodsoe county, they learned from some mountaineers that two "critter compnies" of the Seventh Pennsylvania cavalry, under Captain Brown and his son, were then in the Sequatchie valley and pushing on to Pikeville, and James Collins shuddered at the thought of coming into conflict with his own comrades.

CHAPTER II.

The lawless mountaineers of the Cumberland plateau during the war owed their long immunity from punishment to their vigilance and daring, but above all to their thorough knowledge of the country in which they operated. The gang under old Kit McGee and his son, young Kit, was by no means the strongest or most persistent that made these hills a pen of slaughter for Union and Confederate alike and a place of refuge for themselves, but I have chosen it to illustrate the courage of the scout, James Collins, and to give a good picture of a series of situations dreamed of by none of those who are best acquainted with all the recorded features of the great war.

The plan of James Collins, after learning of the rendezvous and habits of the McGee gang, was to make his escape to Cumberland gap, from which point he would guide the force sent out by General Burbridge to destroy these Ishmaelites. That he would have to join the outlaws he believed, but he never imagined that he would be called on at once to prove his fidelity to his new associates by making war on his old friends.

As the men under young Kit McGee were halted waiting for further reports of the detachment of cavalry that went up the Sequatchie under Captain Brown, a scout came in from the direction of Pikeville with the news that three Yankee wagons were moving north with only a few guards to protect them. As

plunder was the sole purpose of this raid, McGee sent two men off to watch the wagons till nightfall and then come back and report the whereabouts of their camp.

About midnight the two men returned

and reported the three wagons in camp about four miles away. The only guards were a sergeant and six men and a wagon master, and these were so secure in their position and the belief that there was no enemy within reach that it would be an easy matter to surprise them.

"Ef they show fight, we uns must shoot them down at once. Ef they give plim in, ez they'll do ef they've got sense, we uns'll tie 'em up and git back wita the plunder afoah they know hit. Now, boys, be ez silent ez ef you uns was all dumb and barefoot."

This was young Kit McGee's advice to his men before they started off, and they obeyed him as if they had been regulars.

Through woods that were or seemed to be trackless in the night, and along ledges where even a mule must have lost his footing, McGee led his men till at length they saw the dull, coppery glow beneath them that marked the camp of the wagons. The mountaineers outnumbered the teamsters and guards two to one, and in addition they had the overwhelming advantage that always lies with the party who knows the enemy's strength and makes the attack in the nighttime.

As they neared the camp they could see two guards passing back and forth in a leisurely way between them and the fire. The outlaws, making every movement under the direction of McGee, threw themselves on the ground when about 100 yards away and began to "snake" forward, their right hands on their rifles and their eyes on the two troopers.

A low whistle from McGee was to be the signal to run, but it seemed as if he had forgotten it or that it would never come, for it was not given till he and his encircling men were within 50 feet of the fire. The guards halted, as if attracted rather than alarmed by the sound. The next instant McGee and his men rushed in, shouting, with many oaths:

"Surrendah! Surrendah! D— you uns, surrendah!"

Although there was no show of resistance, the guards were knocked down and disarmed, and each wagon was surrounded in a way that showed familiarity with this form of attack. The surprise was complete. The teamsters and guards very wisely gave up without firing a shot. After the prisoners were placed at one side under guard, Collins, who still trembled for their safety, asked McGee what he was going to do with them.

"I'm a-goin to parole 'em," he replied.

"But I can't see how you uns can do that, as you uns are fighting on neithah side," said Collins.

"Waal," responded McGee, "this is how we uns work hit, and ef so be you keep your eyes wide open you'll soon git the hang of hit. Whar we uns takes Yanks, we uns sw'ars 'em not to fight agin the Confederacy till they're exchanged, and ef they're rebils we sw'ars 'em not to fight agin the Union. That's the dodge, and she works smooth ez ile every time."

In the camp there were 12 mules and eight saddle horses. After examining the contents of the wagons, which was done with the rapidity and accuracy that come of long practice, all the port-

"Surrendah! Surrendah!"

able goods were packed on the animals—blankets, canvas, harness straps and wagon seats being quickly extemporized into pack saddles. The wagons contained commissary stores, with some carbine and pistol ammunition, and the camp chests of some officers of the Seventh Pennsylvania cavalry. After selecting what could be conveniently carried off, the wagons were brought side by side and set on fire to increase the impression that the work was being done by a Confederate raiding party. This done, McGee, who could neither read nor write, though he pretended that he could do both, made the sergeant write out the parole and sign it, as did his companions. Collins tried to get an opportunity to speak with the prisoners, through whom he might get word through to Chattanooga or Cumberland gap, but he was so closely watched that this was impossible.

From the time the attack was made till they were ready to move back into the mountains was not more than an hour. Before starting off McGee warned the prisoners not to move from where they were till after sunrise, threatening that if they did so they would be shot down before they got 100 yards away.

A messenger was sent ahead to tell old Kit McGee of the success of the expedition, and the others hurried after, with their 40 laden animals. It took the party three days to make the return. Every precaution was taken to destroy the trail. For miles they traveled in the rocky beds of the mountain streams, the men as well as the animals walking knee deep in water. At length, as the sun was setting, they came within sight of the camp to which Collins was brought by the man Owen, and where old Kit McGee ruled his clan like the robber chieftain that he was.

The messenger having come through with the news, the people were eagerly watching for the return of young Kit's party. As soon as they caught sight of them they sent up a shrill cheer and

swarmed out to meet the "rebils," as the highland women might have done when the men returned beyond the Grampian wall from a successful foray in the stock meadows of the lowlands. The men then in camp, the women, the children and even the dogs came out to

look on the 20 horses and mules staggering under their loads of plunder and to greet with joyous oaths the marauders who had done so well.

"I felt like a thief, though I knew just why I was there," said Collins. "At first I was kind of tickled that

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system as will be seen by the accompanying

cut. The little white lines are the nerves which convey the nerve force from the nerve centers to every part of the body, just as the electric current is conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact; instead of treating the nerve centers for the cause of the disorders arising therefrom they treat the part affected.

Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject long since realized the truth of the first statement, and his Restorative Nervine is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacture during the remedy amply prove.

Dr. Miles' Restorative Nervine is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee—return direct by the Dr. Miles Medical Co. Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. Restorative Nervine positively contains no opiates or dangerous drugs.

THE DUNTON MURDER RECALLED BY DEATH

MRS. DORA SCUDDER PASSES
AWAY AT CHICAGO.

At the Time of the Noted Tragedy She Was Given Her Choice and Stayed By Her Husband and the Scudders—Consumption Caused Her Demise.

The famous Dunton murder case is recalled by the word that came to Janesville today announcing the death of Mrs. Dora Dunton Scudder, which occurred in Chicago, she being afflicted with consumption. Mrs. Scudder was the adopted daughter of Mr. and Mrs. Frank Dunton, and at the time of the murder of Mrs. Dunton by her husband, Dr. Scudder, she was given her choice of casting her lot with the Scudders or with the Duntons. She decided in favor of the Scudders and since that memorable tragedy there has been no communication between her and the Duntons. No particulars of her death have been received, but it was not unexpected.

MARTIN G. CURTIS is now the proud possessor of two cigar stores. His last purchase was the Stafford establishment in the Myers block, and at the same time he is running the Brown store, in the Lappin block. The latter place will be kept open, in charge of Adolph Kanuteson, until the middle of next week, when it will be closed in order that the building may be fitted up for the Bower City Bank. Mr. Curtis will then confine his attention to the Stafford store.

By going into the eastern markets as early as we did, we were enabled to get the pick. That's why we have so many spring novelties here so soon, for instance, all the new style printed pongs, that sell regularly for 12½ cents a yard, 8½ cents and beautiful plaids and checks. All these go this season 20 percent below any other year. Bort, Bailey & Co.

An Orfordville correspondent says: "Very seldom indeed are the people of Orfordville given a rarer treat than they received on Tuesday evening while listening to Rev. Frank A. Pease, of the M. A. C. Graper, a Chicago and Northwestern freight conductor who ran through Janesville for some time and is well known here, was struck and instantly killed by a passenger train at 10 o'clock last night at Harding and Kinzie streets, Chicago. The fact that Graper had been killed was discovered by the tower man, who found something to be the matter with his switches. On investigation he found portions of Graper's body wedged in the mechanism. The head was found in one place and the limbs in another and portions of the body were strewn along for some distance.

THE CHARITY BALL IS DECLARED OFF

THE HOSPITAL DIRECTORS
ABANDON THE SCHEME.

Many People Prefer to Help the Poor, At This Time, Rather than the Hospital So the Managers Urge All to Patronize the Imperial Benefit Instead.

Janesville people will not dance for charity this year as the directors of the hospital have decided to abandon the party that was to have been given next Tuesday evening.

"We look at it like this" said one of the directors this afternoon. "The Imperial Entertainers are going to appear in behalf of the poor, and as many people seem to prefer to give their dollar to that cause, we decided to declare the party off. We wish to urge everyone to patronize the entertainment instead, and we will do something for the hospital later on. Now that the hospital is closed, people seem to lose some of their interest in it, and as there are a great many people who are destitute and suffering, we decided that the course adopted would be the best. The Bennett bequest of \$1,000 will not come to us for some time yet, so perhaps by the time we get that we can do something that will result in the opening of the institution. We could not see our way clear to make much money, if we made any at all, and we certainly have none to lose."

"I think the move of the directors is a good one," said a Third ward resident. "Fifty dollars wouldn't help the hospital to any great extent, while it would supply food to many a suffering family."

Now let everyone start in and help the poor out, and later out we can open the hospital, too.

THOMAS DIXON'S IDEA OF FOOLS
Eloquent Lecturer Pleases a Large Audience Immensely Last Night.

All kinds of fools were described by Thomas Dixon Jr., in his lecture on "Fools and the School of Experience" at the Congregational church last night. The lecture was the fourth on the Peoples' course series, and a large audience enjoyed it fully. Mr. Dixon is a very pleasant speaker, and his discourse was replete with good things. John M. Whitehead introduced the speaker. Mr. Dixon touched upon the educational fool, the spiritual fool, the fool for luck, the fool who believed the majority was the divine mind, and the "fool in a flurry." He told of the people who came under the different classifications and the probable result thereof. The way to overcome the difficulties were also outlined. Mr. Dixon made an excellent impression on Janesville people on the occasion of his first visit which was heightened greatly by his second lecture.

A PLEASANT VALENTINE SOCIAL

Given By Miss Chessie J. P. Smiley of the Town Of Plymouth

A delightful social event occurred in the town of Plymouth, it being given by Miss Chessie and J. P. Smiley, Wednesday night. Between fifty-five and sixty were present and all had a merry time. Those present from this city were Miss Araby Sutherland, Miss Mary Dillenbeck, Fred L. Clemens and Miss Cora Clemens.

In these days of telephone, telegraph, electricity and steam, people cannot afford to wait days or as many hours for relief. This is our reason for offering you One Minute Cough Cure. Neither days, nor hours, or even minutes elapse before the relief is afforded. C. D. Stevens.

A New Drug Store.

On Saturday, February 23, W. G. Palmer & Son will open their drug store at the corner of Milwaukee and River streets, opposite the First National bank, for business. The store room has undergone a thorough renovation, and handsome new fixtures are being placed within. Their goods are arriving daily, and are being put into position, ready for their grand opening on the above date.

Like a Sieve.

The chief functions of the kidneys is to separate from the blood, in its passage through them, of certain impurities and watery particles which make their final exit through the bladder. The retention of these, in consequence of inactivity of the kidneys, is productive of Bright's disease, dropsy, diabetes, albuminuria and other maladies with a fatal tendency. Hostetter's Stomach Bitters, a highly sanctioned diuretic and blood purifier, impels the kidneys when inactive to renew their sifting function and to the vital current impurities which infect it and threaten their own existence as organs of the body. Catarrh of the bladder, gravel and retention of the urine are also maladies arrested or averted by this benign promoter and restorative of organic action. Malaria, rheumatism, constipation, biliousness and dyspepsia also yield to the Bitters, which is also speedily beneficial to the weak and nervous.

Headache is the direct result of indigestion and stomach disorders. Remedy these by using De Witt's Little Early Risers, and your headache disappears. The favorite little pills everywhere. C. D. Stevens.

News Notes From Fulton.

FULTON, Feb. 15.—Mrs. L. H. Page is getting better. O. P. Murwin made a business trip to Milton Wednesday. Fred Ten Eyck accompanied him. Mrs. W. H. Hill came up from Janesville last Friday to see her mother, returning Saturday morning. Fred Ten Eyck is home to spend a short vacation after which he will return to Milton and resume business in the creamery. Charlie Raymond is home from Beloit where he has been attending school. Albert Rice has sold his '93 tobacco to Orrin Pomeroy of Edgerton, delivering the crop on Monday. Theodore Raymond and son Fred returned to Fulton last week after an absence of three months in Missouri. Born to Mr. and Mrs. Fred Stewart, February 10, a son. Mother and son doing nicely. Aaron Wallen has returned from Chicago. "Uncle" Harrison Coon is about to leave town. He will go to his son's in Iowa and make that state his permanent home. The young folks are enjoying the sleighing if weather does continue cold. Miss Mabel Creek gave a party to a number of friends Monday evening, it being her birthday and all report a fine time. Mr. and Mrs. Oliver Murwin entertained a family gathering last Friday night, it being their youngest son's birthday. S. R. Titus of Beloit will give a week of temperance lectures in the church all of next week. A good program is being prepared and everybody is most cordially invited to attend all of the services. The services at the Congregational church last Sunday were extra good. John Noyce will run the electric lights and engines at the county buildings, Mr. Coombs taking his place here for the present. Mr. Noyce will be missed very much. Sayer Pease and Stewart Murwin gave a party in Stewart's hall last Friday evening, a number from Janesville being in attendance, those being Webber Hill, Mr. Brown, Miss Spoon and Emma Hill, Miss Maud Brace and sister. A very pleasant time was had by all. This has been a very busy week so far in the tobacco and hog trade many having sold to Edgerton buyers.

A gentleman of this county who has excellent judgment, remarked to us the other day that he knew of no pill, so good for constipation, dyspepsia and liver complaint as De Witt's Little Early Risers. C. D. Stevens.

If the Baby is Cutting Teeth, Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

The farmers' institute at Edgerton drew a good crowd on Thursday. Many farmers took the opportunity of a fine day and attended. Arthur Short gave a good talk on the dairy interest of the county.

Gossip From Stebbinsville.

She was one of the pioneers of this county, and the funeral was held at the church, conducted by Rev. Rowell of Fulton, at 1 o'clock and the remains were buried in Wheeler Prairie cemetery. An auction will be held at Will Seers' on Feb. 27. A number from this place attended the meeting at Edgerton last week.

WHAT BABY WILL GET THE GAZETTE'S \$500

THAT IS THE PRIZE TO BE
AWARDED JUNE 1.

The Brightest, Sweetest and Loveliest
Child in the City Will Be Given
Five Shares of Paid Up Stock in
the Rock County Building & Loan
Association.

The sweetest, brightest and loveliest
baby in Janesville gets \$500
from The Gazette June 1.

Whose is that baby?

"That question sounds easy."

As if there was the least doubt
whose baby is the loveliest," says
every proud mother looking at her
own olive branch. And that's the
trouble. Talk it over until Christmas
you may but never expect to get a
convention of mothers to agree on the
baby question.

For the benefit of jealous parents,
anxious aunts and uncles and proud
brothers and sisters of older growth,
however, the matter should be settled.
And settled it is to be.

How?

Why not by vote?

That plan seems the fairest and
most satisfactory—the safest too, for
who would dare judge among the hun-
dreds of dimpled darlings that grace
the Bower City. A vote will decide,
therefore, and all Janesville may cast
their ballots. Three months from the
day the polls open a \$500 block of
stock in the Rock County Building
Loan and Savings Association will be
turned over to the infant with the
strongest "drag", as politicians would
put it.

Five hundred dollars.

A handsome nest egg for any in-
fant.

Put out at interest until the little
one reaches maturity and it swells to
proportions even more impressive.
And in building association stock with
all dues paid it is in very desirable
form.

The association selected is known to
everybody in the city. These are the
officers and directors who testify to
its solidity. These are the men:

President—Samuel C. Cobb.

First Vice President—Alex. Graham.

Second Vice President—W. H. Judd.

Attorney—Charles E. Pierce.

Secretary—George L. Carrington.

Treasurer—Isaac Farnsworth.

Directors—S. C. Cobb, Alex.
Graham, Dr. William H. Judd, L. B.
Reynolds, Miss Lizzie Paterson, James
E. Fifield, George L. Carrington, E.
W. Lowell, S. B. Lewis, Archie Reid,
F. M. Marzuff, H. F. Bliss.

These officers and directors stand
behind every share of the association's
stock. Five shares of this stock is
now in the association's keeping sub-
ject to the Gazette's order. Polls will
be open in the Gazette office March 1
and will remain open until June 1.

The baby that receives the most bal-
lots in that time will receive a certi-
ficate calling for these five shares of
stock. There are no dues to be paid,
no assessments to be met, no install-
ments to provide for. The stock
stands for \$500 in cash and on its matur-
ity, which will be in

nine and one-third years,
the money will be ready. The prize
is a handsome one—it is well worth
winning and the conditions of the
ballot are as follows:

From March 1 until June 1, a cou-
pon will be printed in each issue of
The Gazette.

Any one, anywhere in any state is
entitled to vote as often as they buy a
copy of The Janesville Gazette con-
taining the above ballot.

Cut the ballot out (trimming on the
dotted lines.) Write in the name of
your candidate and enclose same in an
envelope addressed to Ballot Editor,
Gazette, Janesville, Wis.

Only one person can be voted for on
one ballot.

The baby who receives the largest
number of votes will receive five shares
of stock in the Rock County Building
& Savings Association, cash value,
\$500 at maturity.

The contest will close June 1 at 9
p. m., and the stock will be delivered
as soon as the count of votes is com-
pleted.

Any non-subscriber who will sub-
scribe for The Gazette and pay in ad-
vance will be entitled to the following
number of ballots:

New subscriber paid in advance one
month, 100 votes.

New subscriber paid in advance two
months, 250 votes.

New subscriber paid in advance six
months, 900 votes.

New subscriber paid in advance one
year, 2,000 votes.

Each new subscriber who pays in
advance and casts the number of votes
specified is also entitled, of course, to
cut coupons from the paper from day
to day and vote in the regular man-
ner.

No person will be allowed extra
votes for stopping his paper and hav-
ing it sent to another name at the
same address.

In every instance they must be bona
fide new subscribers.

No person will be allowed to stop
his paper on Monday and start it again
Tuesday and claim the premium of-
fered.

No votes can be transferred from
one candidate to another after being
registered in this office.

Candidates must not be more than
three years of age March 1, 1895, and
must live in Janesville.
